Lufra to Lookout

'The most beautiful coastal Hillclimb event in Australia'

## Overview

The **Lufra to Lookout Hillclimb** is conducted in August each year offering a weekend of motor sport competition activities at Eaglehawk Neck and the Tasman Peninsula and located and coordinated out of Lufra Hotel and Apartments.

The Competitive elements of the Event will be managed by Club Motori Italiana (CMI) a club involved in several of these events each year throughout Tasmania. The Hillclimb is a 'regularity' event.

**Club Motori Italia**  
- a CAMS Affiliated Club

The event will be conducted under the auspices of the Confederation of Australian Motorsports (CAM's), being the licensing body.

There are 831 licensed competitors throughout 23 affiliated Club with 472 accredited officials within Tasmanian Clubs. Nationally there are 20,775 competitor license holders (CAMs 2013)

**Tasmanian Digital Television** our Foundation Sponsor, will be delivering a promotion airtime package in excess of \$35,000 value to support the 2016 event.

TDT's promotional airtime is the first benefit to all involved.

It ensures the Hillclimb's success as an event where competitors and the public can enjoy the skills demonstrated in what is a safe, but dramatic, motorsports event.

And the setting - 'the most beautiful coastal Hillclimb event in Australia'

## Description of the Event

The event will deliver a high quality and attractive winter competitive Hillclimb Motor Sports event at Eaglehawk Neck, in the south east of Tasmania attracting intrastate and interstate Motor Sport enthusiasts over three days.

*Hillclimbing is one of the oldest forms of competitive motor sport and enjoys a strong following throughout Australia. The essence of hillclimbing is that it is a single car on the track at a time running against the clock. Hillclimbs cater for nearly every category of CAM's\* recognised vehicle and vary from standard road cars through to dedicated and specialist hillclimb cars exhibiting the pinnacle of motor sport technology from around the world.*

*Part of the skill involved in hillclimbing is learning to drive the car quickly without the opportunity to warm tyres and brakes. It therefore proves an invaluable training ground for drivers in all aspects of car control. Drivers must hold a Level 2 Speed license.*

(\* [www.cams.com.au/motor-sport/sport/disciplines/speed/hillclimb](http://www.cams.com.au/motor-sport/sport/disciplines/speed/hillclimb))

While speed may be a consideration for some, it is the skill employed by the individual driver that will win the King of the Climb trophy. Being a 'Regularity' event, the competition centres on the competitors ability to consistently manoeuvre the course over 4 or more runs.

The Lufra to Lookout Motor Hillclimb is premium event on the Tasmanian Motor Sport calendar.

The event will be staged around the Lufra Hotel, on Pirates Bay Drive (the course) at Eaglehawk Neck. The Hillclimb comprises a challenging 2.5km course that starts at the

Lufra Hotel/Tessellated Pavement carpark and terminates just below the Pirates Bay Lookout.

## Event Program

**Day One:** Friday 19<sup>th</sup> August - Course set up and initial briefing, competitors begin to arrive.

**Day Two:** Saturday 20<sup>th</sup> August - The Regularity Hillclimb competitive event takes place culminating in the official presentation that evening where Class Champions and other awards are made.

**Day Three:** Sunday 21<sup>st</sup> August – Expects to see two new elements, being the EV (Electric Vehicle) Challenge followed by a Vintage Car Hillclimb Challenge, featuring both ends of the development of the Motor Vehicle.

The day will finalise in a final Climb event, where the winner from day one will take on winners from both the Electric and Vintage classes. Final presentations will be made on Sunday afternoon after all events have been completed.
