## MEDIA RELEASE

24 July 2024

### ***AEVA announces partnership with Europcar***

Global car rental company Europcar has partnered with the Australian Electric Vehicle Association (AEVA) to offer AEVA members discounted rates on EV hire. Members can enjoy 10% off the base rate for EV hire anywhere in Australia, and 20% off in New Zealand.

AEVA continues to expand its member benefits, with more partnerships on the way. Members travelling within Australia or even across the Tasman can now conveniently hire an EV with Europcar and continue to enjoy driving electric away from home.

“EV owners are rarely enamoured with renting petrol or diesel vehicles on their holidays”, said Dr Chris Jones, National President of the AEVA. “If an EV option exists, it’s normally leapt at - we never really stop flying the flag”.

Discounted EV hire is also a valuable way for members who are interested in EVs, but have not yet taken the plunge, to test drive one. “This is a fantastic entry to electric motoring. Whether it’s a cross-country holiday, or busy work schedule in a new city - what better way to try before you buy?” said Dr Jones.

**Quotes attributable to** Benoit Garel, Managing Director of Europcar Mobility Group Australia/NZ:

“Europcar is dedicated to pioneering sustainable mobility solutions that benefit both communities and the environment. Our collaboration with AEVA underscores our commitment to promoting flexibility, sustainability, and accessibility in mobility services. We are excited to offer bespoke rates to AEVA members, supporting their transition to electric vehicles with a range of options to meet any mobility need. This partnership presents an exciting opportunity to combine our expertise and resources, driving positive change and delivering innovative solutions for our customers.”
